EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barbara Schwalger on 1/7/04.

The application has been amended as follows: In claim 1, part a), lines 1 and 2, the phrase "a reaction medium" has been replaced by the expression --an aqueous reaction medium--. Claims 16 and 19 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The cited references do not disclose the claimed aqueous reaction medium. As far as the 112 rejection over "carboxyl derivatives" is concerned the examiner accepts applicants' explanation that Ilg et al. 6,150,496, in column 7, lines 15-18, show the claimed amide forming derivatives as esters or anhydrides, and these amide forming derivatives are known by one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the
